Dear, FAMILY

Peace be upon who follow the guidance

I am sorry for not writing for a while to see how are you doing in the holidays but I thought it would be worth the waiting. By now you would know that, with all praise and thanks to Allah then you both (the queen first) then the good people here, I got my lap top computer finally.

I hope all of you and the family, especially the little ones, is in the best health. May Allah keep the family in good health and love?

Do please contact womble to ask about the books in GETMO which I was told by ICRC that were approved. That was a month ago. Also if would put some pressure on her by sending her an e-mail every week or 10 days to follow up on my outgoing and incoming letters.

Guess what, they have Parental Control software installed. I am assuming that I cant see any ?????? Websites.

I.Y.O.F.E
